Subject: Damp and black mould in flat: urgent (Flat 38 Westwood House)

Hello,

I've been calling the repairs line for most of this week with no luck so I'm writing to put it in writing. There is serious damp and black mould in my flat. The children's bedroom and the bathroom are the worst affected. The mould is on the walls and ceiling. My youngest, Daniel (5), has had a persistent cough for several weeks.

Please can someone come and look at this as a matter of urgency. I am happy to be at home any day this week.

Thank you,
Crystal Bello

#03 · Inspection happened today: I don't agree it's just condensation

Hi,

Mr Iyer attended this morning. He concluded it was 'condensation' and told me to open the windows more and stop drying clothes indoors. I don't agree; the walls in the children's bedroom feel wet to the touch when it has been raining. There is also mould spreading behind the WC. Please can you arrange a further visit and check the external brickwork and roof?

Job ref: REP-250904-024417.

Thanks,
Crystal

#04 · Following up: no contact since the inspection

Hello,

No one has been back in touch since the inspection 6 days ago. The mould is getting worse. Daniel coughed for most of the night again. Could someone please tell me what is happening next?

Hi,

Sending photos as the officer requested in our call earlier in the week. You can clearly see the black mould on the wall by my son's bed. Please confirm receipt and tell me when redecoration will be carried out. The contractor attended on 14 October and asked me to sign a form, and I'm attaching that too, I'd like to confirm what I've actually agreed to.

#07 · Mould is back, worse than before: please escalate

Hi,

The dehumidifier helped a little while it was running but the mould is back and worse than it was at the start. The new bathroom fan is louder but doesn't seem to make any difference. I'm now having to keep both children in my room because the mould in their bedroom is so bad.

Please escalate this. I'm very worried about the children's health.

It's been nearly three weeks since you said you'd arrange another inspection. Could you please at least give me a date? The mould has now started to come through into the hallway by the bathroom door.

Please can someone with authority deal with this. I've been reporting this since September and the situation is worse than when I started. My son's GP has now written a letter about the impact on his health, and I'm attaching it.

Dear Ms Bello,

Following a recent restructure of our Housing Solutions team your case (REP-250904-024417) has been reassigned to Mr Nicholas Quill, Senior Housing Officer. Mr Quill will be in contact in due course.

Yours sincerely,
Customer Resolutions Team

#12 · Hi Nicholas: please pick this up

Hi Nicholas,

I haven't heard from you since you took over my case two weeks ago. The mould has now spread into the hallway and is visible on the skirting in the children's bedroom. Daniel's cough is no better. I really need someone to engage with this and explain what is being done.

I can be reached on 07771 023 884.

Could someone please tell me what to do? I've sent photos. I've sent a GP letter. The mould is now in three rooms and we are sleeping all in one room. I am asking for an urgent specialist surveyor visit, temporary decant accommodation, or both. Please reply.

#15 · Final email before I get help: please respond

Cc: Nicholas Quill <nicholas.quill@southwark.gov.uk>
Date: Wed 06 May 2026, 21:14
Subject: Final email before I get help: please respond

I'm sending this email as a record of my concerns.

Eight months on, nothing has changed. The mould is in three rooms. Daniel is still coughing and we are still sleeping all in one room. I've been advised that I may need to make a formal complaint and consider the 'Pre-Action Protocol for Housing Conditions Claims' under the Homes (Fitness for Human Habitation) Act 2018. I would much rather not go down that route.

Please can someone phone me on 07771 023 884 to talk about this.
